

ESTRELA 74

Spaces for Events & Experiences

ABOUT US

Estrela 74 was born from a clear vision: to create a space where culture and business could naturally coexist, and where ambitious ideas could be brought to life.

With a consolidated professional background in both the business and art worlds, **Janire Bilbao, founder and director of MOVART Gallery since 2015**, recognized the opportunity to develop a venue that could bridge creative expression and professional gatherings. Together with her partners, she set out to create a flexible space capable of hosting corporate events, brand activations, cultural programs and creative experiences under one roof.

Set in the heart of Lisbon, near Estrela Park, Estrela 74 was thoughtfully renovated to reflect the city's dynamic spirit and growing international presence. More than a venue, it represents a new chapter — one that expands the vision of Movart Gallery and opens the door to meaningful encounters, collaboration and unforgettable events.

LOCATION

In the heart of Lisbon, **just two minutes from the Basílica da Estrela** — this neighbourhood, according to ***Now in Portugal magazine***, is a blend of **classic and modern, old and new, quiet and vibrant.**

With plenty of **green areas**, **great restaurants and bars**, and a **new metro station opening soon**, it hosts some of Lisbon's most emblematic palatial buildings, offering one of the most pleasant strolls the city has to offer.
